The safety of the students of Washington County has been and will continue to be the top priority of the Washington County Transportation Department. For the parents of students in grades Pre K through Fifth, the Transportation Department is asking to please have the number of the bus your child will be riding attached to their clothing for the first few days of school. This will help ensure that all students arrive to their appropriate destination as safely and quickly as possible.

The routes are basically the same as last year, but some bus numbers have been changed. Please note the changes and check for the animal decal affixed to the side of the bus. This will help younger students recognize the bus they need to ride.

The Transportation Department wishes your child a safe and productive school year; working together this can be achieved.

Due to the extreme heat, students will be allowed to bring something to drink on the bus from the beginning of school until the Thanksgiving Break.

To keep this privilege, students must dispose of the containers properly. Containers must not be left on the bus.

Sincerely,

Willie A. Coneway

Transportation Director,

Washington County Schools
